Cedrus Investments' Nanotechnology Indices Outperform Major Indices in 1H2016

16 Aug 2016
 PR Newswire Asia

HONG KONG, Aug. 16, 2016 /PRNewswire/ -- **Cedrus Investments** ("Cedrus"), a global leader in the nanotechnology investment arena, announced today the 1H2016 performance of its two global nanotechnology indices, both launched in October 2009 - Cedrus Nanotechnology Index - Diversified (CNID) and Cedrus Nanotechnology Index - Pure (CNIP). Both CNID and CNIP outperformed several major equity indices in the period, including S&P 500, NASDAQ Composite, MSCI World, Russell 3000, Hang Seng, Shanghai Composite, Nikkei and DAX with a respective return of 5.92% and 3.89%.

Cedrus maintains two indices in order to meet the needs of diverse investors. These indices serve as performance benchmarks for nanotechnology investing. Cedrus' diversified index (CNID) includes equally-weighted companies spanning all five nano-markets, including electronics, manufacturing, energy, life sciences and clean technology and is inclusive of both diversified companies that have nanotechnology as only one of their many growth drivers, and pure-play companies that have nanotechnology as their primary driver of growth. Cedrus' pure index (CNIP) is a concentrated index, comprised of equally-weighted pure-play companies spanning also all five nano-markets and is best-suited for small-cap investors.

About Cedrus Investments

Cedrus Investments is a global boutique investment firm that offers expertise in private wealth management, asset management and financial advisory services to a clientele of leading institutional investors, corporations, family offices and high net worth individuals around the world.
